Description

Introducing the smallest Electronic Cigarette in the world! The Electro Disposable Electronic Cigarette

The Electro Disposable Electronic Cigarette is the perfect way for you to test out Electronic Cigarette technology for the very first time.

The Electro disposable is of the highest quality on the electronic cigarette market. Boasting the latest fluid feeder technology, our disposable compared with other brands does NOT have suspending wool in its liquid chamber giving a cleaner and smoother taste than ever before!

The vapour production is simply amazing considering its size!

Unlike other disposables available on the market today, this disposable is exactly the same size as a traditional cigarette making it the smallest disposable in the world!

Having tested our product in the market and received a 100% positive reaction we are sure that you will enjoy the latest that Electronic Cigarette technology has to offer with Electro Cigarettes!

The Benefits

- Not subject to the traditional Cigarette bans/Public Health Act in public places
- Satisfies nicotine cravings
- Contains no tar or cancerous toxins such as arsenic or carbon dioxide
- No passive smoking
- Non-flammable (no combustion is involved)
- One disposable electronic cigarette
- Users experience an almost identical sensation to smoking a normal cigarette, without the horrible taste or smells.
- Cheaper to use compared with traditional cigarettes
- Same size as a real cigarette
- Equivalent to 20 real cigarettes
- Light to hold

This is the best disposable electronic cigarette I have tried as well as the smallest. Even though it's so small the performance and taste is really good, compared with all of the cigar sized disposables I have used this is by far the best and cheaper as well! Highly Recommended!
